

Open Source Alternatives to Digital Commons

David Brian Holt, UC Davis

Brian Huffman, University of Hawaii

Erik Beck, Sacramento State University

Leah Prescott, Georgetown University

Kathy McCarthy, TIND.io

<http://bit.ly/daviscow>

Why is this via WebEx?

California Travel Ban

Erik and David are both employed by the State of California. South Carolina is on the travel ban list due to its active enabling of discrimination against its LGBT residents.

Campaign for Southern Equality

Consider offsetting your travel to South Carolina by making a contribution to the Campaign for Southern Equality

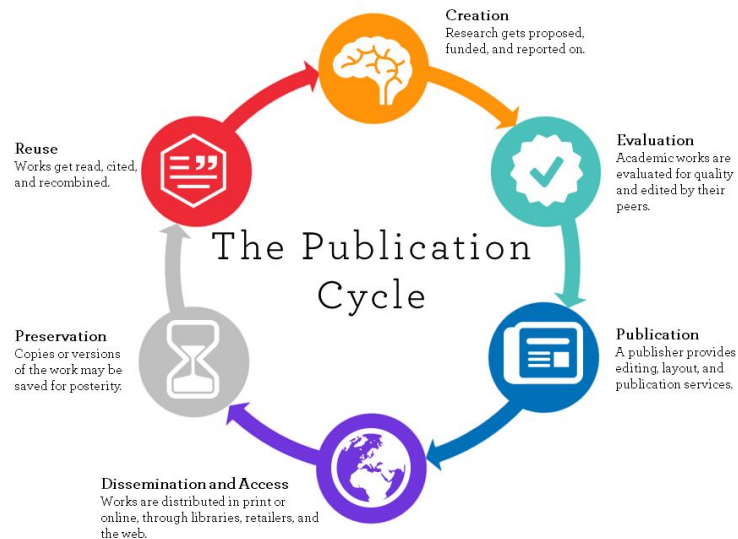

<https://southernequality.org>

“Life Cycle” of Legal Scholarly Publishing

Research to Publication

1. Conduct research and create working draft
 - a. Upload to SSRN (or LawArXiv!!)
2. Submit to journals
 - a. Via Espresso or Scholastica
3. Publication
4. Deposit in IR

Credit to University of Wyoming

Current Landscape

Digital Commons Market Share

Of the 206 ABA-accredited law schools, 82 of them are currently using Digital Commons as their institutional repository

Why Digital Commons?

1. Hosted solution
2. Provides platform for journal publishing and symposia
3. Sophisticated search engine optimization

Why not Digital Commons?

1. Now owned by Elsevier!!
 - a. History of opposing open-access scholarship
2. One vendor controls entire “eco-system” of legal scholarly publishing:
 - a. Espresso
 - b. SSRN
 - c. Digital Commons

Alternatives

Major Open-Source IR Projects

1. Dspace
2. Tind (Invenio)
3. Samvera
 - a. Islandora
 - b. Hyku
4. EPrints
5. Omeka? (not really)

What's missing?

1. Journal hosting
 - a. Open Journal Systems (OJS) may be viable alternative
2. Symposia hosting
 - a. Ubiquity Press working on a Hyku-based IR for symposia along with OJS-based journal hosting platform

Tech Specs

How it's made

1. Ruby on Rails
 - a. Samvera options (Hyku, etc.)
 - b. Not used widely in academia
2. Python
 - a. Invenio (Tind written in Python with Flask frontend)
 - b. Heavily used in academia
3. Java
 - a. Dspace (front-end has been rewritten in Angular)

Pros/Cons

- Easier to find technical support for Python vs. Rails
- Python is gaining market share
- Tind is a small Norwegian company (but using software from CERN)
- Dspace no longer seen as cutting edge (but new version coming!)

Cost Considerations

- Digital Commons runs about \$25K a year
- Tind has fairly similar pricing
- Self-hosting an IR can reduce costs
- Consider labor costs!

Examples

Examples

1. Dspace (Texas Digital Library) - <https://tdl-ir.tdl.org/>
2. Islandora (Florida State University) - <https://diginole.lib.fsu.edu/repository>
3. Tind/Invenio (Cal Tech Data) - <https://data.caltech.edu/>
4. Samvera/Hydra (Oregon Digital) - <https://oregondigital.org/catalog/>
5. Samvera/Hydra (California State University) - <http://demo.digital.calstate.edu/>
6. Open Journal Systems (OJS) - <http://www.glossa-journal.org/>
7. LawArXiv (pre-press system) - <http://lawarxiv.info/>

DSpace: Overview & UH Experience

Brian R. Huffman,

Electronic Services Librarian, University of Hawai'i Law School

UNIVERSITY of HAWAII at MĀNOA
WILLIAM S. RICHARDSON
SCHOOL OF LAW

In a Nutshell

- DSpace = DuraSpace
- Developed by MIT Libraries and Hewlett-Packard (HP) Labs
- Released in 2002
- Over 1000 institutions using
- Can customize user interface
- Written in Java, tested under Linux, Windows, and Mac OSX

UNIVERSITY of HAWAII at MĀNOA
WILLIAM S. RICHARDSON
SCHOOL OF LAW

Features that make DSpace an ideal IR:

- Dublin Core metadata support
- Customizable workflows, submission forms that can be defined on a per collection basis
- OAI-PMH (Open Archives Initiative Protocol for Metadata Harvesting)
- Embargo, licensing and other access control features
- Very good Google Scholar indexing results
- OpenAIRE compliant

UNIVERSITY of HAWAII at MĀNOA
WILLIAM S. RICHARDSON
SCHOOL OF LAW

Our DSpace Experience

- Run DSpace 5; version 7 is soon to be released
- Costs to UH: server (\$1K/yr); salary: 2 full-time equivalents (one IT, one librarian); add any digitization costs, data entry, etc. depending on projects. FTE does more than just DSpace support.

UNIVERSITY of HAWAII at MĀNOA
WILLIAM S. RICHARDSON
SCHOOL OF LAW

UH Open Access Policy

- UH Mānoa is listed on ROARMAP: Registry of Open Access Repositories Mandatory Archiving Policies. UHM is one of over 700 research institutes and universities with an Open Access Policy.
- Policy: <http://go.hawaii.edu/fZX>

UNIVERSITY of HAWAII at MĀNOA
WILLIAM S. RICHARDSON
SCHOOL OF LAW

How is this Accomplished?

Through the Academic Library: The University of Hawai'i at Mānoa Library, Desktop Network Services Unit, will maintain the institutional repository. Faculty librarians and staff facilitate the submission of the scholarly articles and are available for consultation about the procedures.

UNIVERSITY of HAWAII at MĀNOA
WILLIAM S. RICHARDSON
SCHOOL OF LAW

Meet Our Institutional Repositories: ScholarSpace and eVols

ScholarSpace = scholarly works

(articles typically presented in peer-reviewed scholarly journals and conference proceedings)

eVols = digital publications

(a home for material which the Library or the University digitizes as part of grant projects and digital library program initiatives) Examples: Merrie Monarch Festival programs, Hawai'i Medical Journal

UNIVERSITY of HAWAI'I at MĀNOA

 UNIVERSITY of HAWAII at MĀNOA
 WILLIAM S. RICHARDSON
 SCHOOL OF LAW

The William S. Richardson School of Law is a collaborative, multicultural community preparing students for excellence in the practice of law and related careers that advance justice and the rule of law. We develop highly qualified, ethical professionals through excellence in teaching, scholarship, and public service. We embrace Hawai'i's diversity and values and recognize a special responsibility to our state and the Pacific region. We lead in environmental law, Native Hawaiian law, and Pacific-Asian legal studies.

Soifer, Aviam

Dean Soifer received his law degree from Yale Law School in 1972. He also holds B.A. cum laude (1969) and Masters of Urban Studies (1972) degrees from Yale. While in law school, he served as an editor of the Yale Law Journal, a director of the Law School Film Society, and a director of the Legal Services Organization. He helped to found the C.I.N. Project, representing people in Connecticut's largest mental hospital. He clerked for then-Federal District Judge Jon O. Newman in 1972-73. Soifer began his law teaching career at the University of Connecticut in 1973, received a Law and Humanities Fellowship at Harvard University in 1976-77, and taught at Boston University from 1979-1993. He served as Dean of Boston College Law School from 1993-1998, and continued to teach at BC until 2003, when he became Dean of the William S. Richardson School of Law at the University of Hawaii. Soifer received Boston College's Distinguished Senior Research Award and he was appointed as a Distinguished Scholar at the University of Wisconsin's Legal Studies Institute. His book, *Law and the Company We Keep* (Harvard University Press, 1995) was awarded the Alpha Sigma Nu Thematic National Jesuit Book Prize in professional studies. He has an extensive record of scholarly publications, presentations, and public service activities and he continues to teach primarily in the areas of constitutional law, legal history, legal writing, and law and humanities.

Islandora Scholar

Erik Beck,

Head of Library Information Systems
California State University, Sacramento

SACRAMENTO STATE
UNIVERSITY LIBRARY

Fedora-based Repositories

Islandora, Samvera, etc.

https://commons.wikimedia.org/wiki/File:Bank_counter_at_Blists_Hill_Victorian_town.jpg

Fedora

<https://commons.wikimedia.org/wiki/File:WinonaSavingsBankVault.JPG>

Fedora-based Repositories

Islandora, Samvera, etc.

- User Interface
- Search Engine and Index
- Content Viewers
- Metadata manipulation
- Ingest process
- Access control
- etc.

Interaction between
systems via RESTful
APIs

Fedora

- File Storage
- Persistent key
- Links object with metadata record
- Administrative metadata

What is Islandora?

- Developed at University of Prince Edward Island's Robertson Library
- Fully open source
- Built to operate within a Drupal website and CMS
- Very modular, add new features through Drupal's module system
- Fully configurable user interface that can be manipulated through Drupal's theme system.
- Uses Solr search engine for object retrieval and metadata indexing
- Offers a variety of ingest workflows and description forms for different kinds of objects
- Offers a variety of different viewing tools for different object types like pdfs and book objects

Content Models

Islandora is configured to respond differently to different types of content.

<https://gph.is/1NY66GG>

Common Content Models:

- PDF
- Image
- Audio
- Video
- Book
- Newspaper
- **Citation**
- **Thesis**

Islandora Scholar

Suite of modules that interact with the Citation and Thesis content models to produce features that are normally associated with an Institutional Repository...

- Display dynamically-formatted citations in a variety of styles (APA, MLA, Chicago, etc.) from data derived from the object's MODS record
- Integration with several persistent ID standards (DOI, PMIDs, Endnote, etc.) and ability to pre-populate records with metadata commonly associated with the object through its PID.
- Embargo functionality
- Integration with Sherpa/RoMEO to display access policies
- Displayable usage statistics
- Translate an object's metadata to Google Scholar-compatible microdata which are exposed in the meta tags of each record page so that repository objects can be crawled

Sustainability

Islandora Scholar continues to be actively maintained by the Islandora developer community. Last commit on the project was April 8th, 2019.

There are several large universities using Islandora Scholar for their IR, including **Boston College** and **Florida State University**.

Currently, Islandora Scholar is only available for **Drupal 7**.

The Islandora Developer Community just unveiled **Islandora 8** this past week! This is the new version of Islandora that can run on Drupal 8.

No word yet on when other Islandora modules will be ported over to version 8 or if Islandora Scholar will be included.

Costs

- Servers - Recommended minimum specs: 4-6 cores, 16GB - 32GB RAM, large volume of storage for repository data (2 TB at CU Law)
- Systems Administration - Installing Islandora requires intermediate-level unix skills and a firm understanding of Ubuntu system architecture.
- Web Development - You'll need a Drupal developer. Preferably a good one.
- Content Management - The ingest workflow can be really involved. You'll devote a lot of time to metadata creation and asset management.
- QA Testing - Because something always goes wrong, and you'll have no one to blame but yourself.

Digital Commons is our institutional repository

Search within this community and its collections:

About the Collection

Professor Laura K. Donohue, the Agnes N. Williams Research Professor at Georgetown University Law Center, in collaboration with the Georgetown University Edward Bennett Williams Law Library, has developed a collection of the most important primary and secondary resources pertaining to U.S. foreign intelligence law and national security.

The collection includes foreign intelligence-related statutory and regulatory instruments; the legislative histories for statutory changes to the Foreign Intelligence Surveillance Act (FISA); publicly available and declassified opinions and orders issued by the Foreign Intelligence Surveillance Court (FISC) and Foreign Intelligence Surveillance Court of Review (FISCR); FISA-related cases in non-specialized Article III courts; statutorily-required reports on the operation of FISA and formal correspondence between FISC and Congress; FISC/FISCR Rules of Procedure; and an annotated bibliography of secondary sources related to FISA, FISC/FISCR, and foreign intelligence law.

This website is meant as a resource for the judiciary, clerks, members of Congress and their staff, lawyers, scholars, journalists, students, companies, members of the public, and anyone with an interest in or need to understand the legal framework for U.S. foreign intelligence collection.

Because many of the dates and filing references in the FISC/FISCR opinions and orders remain redacted, we have assigned each document a Georgetown identification (GID) number, preceded by the Court issuing the opinion or order in the following format: GID C.0000# for FISC and GID CA.0000# for FISCR. Each time an opinion or order is released with different material redacted, it is issued a unique identifier. Individual records contain the recommended bibliographic reference for Bluebook and Maroonbook purposes.

We will continue to update this site as new primary and secondary materials become available. If there are any additional materials that you think should be included, please contact Professor Donohue at:

Opinion, In re Certification of Questions of Law to the Foreign Intelligence Surveillance Court of Review

Holdings, Findings, and Matters of Law

Finding that Movants have adequately established Article III standing to assert their claim of a qualified First Amendment right of public access to FISC judicial opinion; Particularly, Movants have demonstrated that the denial of access to the redacted materials constituted an injury in fact.

[MD]

*HPA No.: 15-296

*Case Name: In the Matter of 1223 4th Street NW

*Location of Property: 1223 4th Street NW, Square 523, Lot 20

*Date of Order: June 24, 2016

*Disposition: Denied

*Subject Matter(s): Windows; Alteration (Including Addition); Compatibility; Mayor's Agent-
Procedural

Summary:

The homeowner added a third window on the second floor of a rowhouse in the Mount Vernon Square Historic District. While the house was built in 2007 and was noncontributing to the historic district, the Historic Preservation Review Board (HPRB) in 2006 had approved the design of the current rowhouse as a condition of its permission to demolish the rowhouse that had previously stood on the site and that had lost integrity through neglect. The approved design of the new rowhouse had two windows on the second floor, which the HPRB had deemed to be consistent with the facades of four historic neighboring rowhouses.

After adding a third window, the owner sought an after-the-fact building permit for the alteration. Following a hearing, the Mayor's Agent rejected the application.

As in previous cases, the Mayor's Agent stated that ignorance of the historic preservation law is no excuse. See, e.g., In Re: 2422 Tracy Place, NW, HPA No. 2013-600 (Aug. 29, 2014). The Mayor's Agent reasoned that even noncontributing buildings in a historic district "should respect the rhythm of its neighbors as well as that of the street," and that the question of whether two or three second floor windows best reflected that "rhythm" had already been decided by the HPRB when it approved the design of the rowhouse in 2006. As in other cases, for questions of style and material compatibility, the Mayor's Agent deferred to the historical and architectural expertise of the HPRB. See In Re: 2225 California St. NW, HPA No. 2011-472 (Feb. 24, 2013).

HPA No. 2015-296 (In re. 1223 4th Street NW)

- HPA No.: 15-296
- Case Name: In the Matter of 1223 4th Street NW
- Location of Property: 1223 4th Street NW, Square 523, Lot 20
- Date of Order: June 24, 2016
- Disposition: Denied
- Subject Matter(s): Windows; Alteration (Including Addition); Compatibility; Mayor's Agent-Procedural

Summary:

The homeowner added a third window on the second floor of a rowhouse in the Mount Vernon Square Historic District. While the house was built in 2007 and was noncontributing to the historic district, the Historic Preservation Review Board (HPRB) in 2006 had approved the design of the current rowhouse as a condition of its permission to demolish the rowhouse that had previously stood on the site and that had lost integrity through neglect. The approved design of the new rowhouse had two windows on the second floor, which the HPRB had deemed to be consistent with the facades of four historic neighboring rowhouses.

After adding a third window, the owner sought an after-the-fact building permit for the alteration. Following a hearing, the Mayor's Agent rejected the application.

As in previous cases, the Mayor's Agent stated that ignorance of the historic preservation law is no excuse. See, e.g., In Re: 2422 Tracy Place, NW, HPA No. 2013-600 (Aug. 29, 2014). The Mayor's Agent reasoned that even noncontributing buildings in a historic district "should respect the rhythm of its neighbors as well as that of the street," and that the question of whether two or three second floor windows best reflected that "rhythm" had already been decided by the HPRB when it approved the design of the rowhouse in 2006. As in other cases, for questions of style and material compatibility, the Mayor's Agent deferred to the historical and architectural expertise of the HPRB. See In Re: 2225 California St. NW, HPA No. 2011-472 (Feb. 24, 2013).

DSpace Record

“The Library has used DSpace as the repository platform to host and manage its digital and institutional repository collections since 2011. With some other repository platforms further developed and available over time, it is time for the Library to assess if DSpace remains the best repository option for Georgetown.”

- Perform a needs assessment to develop functional requirements for digital and institutional repository collections;
- Build criteria and requirements to evaluate the different platform;
- Identify and evaluate the top three to five top commercial and/or open source digital repository systems;
- Report findings and recommendations.

STRONG FOCUS ON UNIVERSITIES

WHY TIND IR?

WHY TIND IR?

1. Unique hybrid of open source and commercial

- Less reliance on local staff resources
- No in-house developers needed

2. Ability to manage more than just publications

- IR + DA: Millersville University, UN Headquarters
- IR + RDM: University of Chicago
- IR + ILS: Olin College of Engineering

3. Opportunity to collaborate on development

- Small customer base means YOUR needs are prioritized

TIND IR FEATURES

CUSTOMIZABLE SUBMISSION FORMS

Based on OAIS reference model and PREMIS data dictionary.
